

## Progress Report

**Name:** GLADYS AKWI  
**Course:** Symbolic Math Onramp  
**Progress:** **100%** complete (as of 20 September 2026)

### Chapters

- |                                                                 |                                   |
|-----------------------------------------------------------------|-----------------------------------|
| 1. Introduction <b>100%</b>                                     | 12. Review Project II <b>100%</b> |
| 2. Symbolic Variables <b>100%</b>                               | 13. Next Steps <b>100%</b>        |
| 3. Mathematical Expressions with Symbolic Variables <b>100%</b> |                                   |
| 4. Define and Solve Symbolic Equations <b>100%</b>              |                                   |
| 5. Algebraic Manipulation and Simplification <b>100%</b>        |                                   |
| 6. Working with Assumptions <b>100%</b>                         |                                   |
| 7. Working with Units of Measurement <b>100%</b>                |                                   |
| 8. Symbolic Functions <b>100%</b>                               |                                   |
| 9. Visualize Symbolic Functions and Equations <b>100%</b>       |                                   |
| 10. Review Project I <b>100%</b>                                |                                   |
| 11. Calculus with Symbolic Math <b>100%</b>                     |                                   |
